PROFILE

Passionate Fullstack Developer dedicated to creating innovative and impactful digital experiences. Solid experience in development with React.js, Next.js, Typescript. Committed to driving results through technical excellence and collaboration within multidisciplinary teams.

WORK EXPERIENCE

Fullstack Developer | ACT Digital (Remote)

May 2025 -

Present

Technology consulting and digital solutions company based in Brazil.

- Developed responsive web applications using React.js and Next.js, enhancing user engagement and satisfaction.
- Collaborated with cross-functional teams to define project requirements and deliver high-quality software solutions.
- Implemented RESTful APIs and integrated third-party services to optimize application performance.
- Mentored junior developers, fostering a culture of continuous learning and skill development.
- Conducted code reviews to maintain code integrity and uphold best practices in software development.

Fullstack Developer | Next IP (Brazil)

Mar 2023 -

May 2025

Technology company focused on digital infrastructure, cloud solutions, and network innovation.

- Developed responsive web applications using React.js and Next.js, optimizing user experience and performance.
- Collaborated with cross-functional teams to design and implement new features, ensuring alignment with project goals.
- Mentored junior developers, fostering a culture of continuous learning and improvement.
- Conducted code reviews to maintain high standards of code quality and efficiency.
- Engaged in client communication to gather requirements and deliver tailored solutions.

Fullstack Developer | Crowdkeep (Portugal-Freelance)
Nov 2024

Aug 2024 -

Workforce management and time-tracking software company.

- Developed responsive front-end applications using React.js, TypeScript, and GraphQL to deliver dynamic and data-driven user interfaces.
- Collaborated with UI/UX designers to enhance user experience through interactive and accessible designs.
- Engineered seamless data integration by retrieving, parsing, and formatting analytical data into React components using GraphQL and REST APIs.
- Integrated RESTful APIs to ensure seamless data exchange and application functionality.
- Conducted code reviews and provided mentorship to junior developers to ensure best practices.
- Participated in agile ceremonies to align project goals and deliver timely results.

Cloud Developer | IBM
Mar 2023

Dec 2021 -

- Engineered a seamless user experience by retrieving, parsing, and formatting analytical data into React components using GraphQL and REST APIs.
- Produced comprehensive documentation that efficiently conveyed company standards and best practices in React.js, Node.js, and GraphQL, reducing onboarding time by an average of 16 days for new team members.
- Crafted user interfaces utilizing contemporary JavaScript frameworks (React.js), HTML5, and CSS3, resulting in a notable 31% enhancement in user satisfaction.
- Developed object-oriented Node.js code strictly adhering to industry and company standards.
- Designed and implemented accessible, responsive, and functional interfaces, ensuring a consistent user experience across various devices. This initiative led to a remarkable 135% increase in 5-star UX/UI reviews.
- Leveraged JavaScript frameworks (React.js and Next.js) to create and optimize web applications, boosting target audience engagement by 12%.
- Utilized JUnit framework for unit testing and maintained quality assurance.
- Innovated by creating new services and models using the Quarkus framework, and updated existing endpoints for APIs to enhance functionality and performance.

Backend Developer | Compass.uol (Remote)
May 2021

Mar 2020 -

Global digital transformation company specializing in cloud, AI, and IT solutions based in Brazil.

- Designed mock layouts and wireframes for 5 new product concepts' landing pages.
- Managed wireframe designs based on client requests, resolving intricate issues related to real-time lead prioritization using WebSocket connectivity.

- Created a streamlined user experience that involved fetching, parsing, and formatting analytic data into React components.
- Developed comprehensive documentation to educate new team members on React.js and Node.js standards, reducing the onboarding period by an average of 16 days.
- Engineered object-oriented Node.js code compliant with industry and company standards.
- Constructed an API conforming to RESTful standards, enabling users to submit information stored in MongoDB.
- Utilized Spring Tool Suite for developing interface modules and web applications using Spring MVC.
- Implemented the JUnit framework for comprehensive unit testing procedures.
- Collaborated on Spring Boot for building RESTful APIs and establishing connections with services and databases.

SKILLS

Frontend Development: React.js, Next.js, TypeScript

Backend Development: Node.js, NestJS, GraphQL

Cloud Platforms: AWS, Azure

EDUCATION

Web Development Diploma | Cornerstone Community College (Vancouver, BC)

Sep 2025 - Present (*Expected Graduation: August 2025*)

Bachelor in Systems For Internet | Federal University of Santa Maria (Brazil)

Jan 2017 - Jan 2022
